Herkimer 1999

Spending the day in the hot sun isn't normally fun. At Herkimer, it is.

If you ever had Mr. Monti you know what Herkimer is all about. If you never had him, chances are your friends know about it, talk about it and at one point experienced it. You don't get the full feeling of the Herkimer trip unless you are covered head to toe in dirt, sweat and more dirt. It's impossible to forget Herkimer 1999.

From six o'clock in the morning, when everyone meets in the High School parking lot, to midday when the sun is at its highest and then back to the High School at night to be picked up, you know that day will be a day never forgotten.

The annual trip, run by Mr. Monti, is a trip to Herkimer, a small town in upstate New York. There, students dig for "Herkimer Diamonds." Whether or not you're fortunate enough to find some depends on your willingness to get filthy. Spending the whole day in the sweltering hot sun isn't normally fun. For some reason though, at Herkimer, it is.

Funny Faces

WHOOPS! We caught ya!

Those not so perfect pictures...

Wouldn't you want to kill the person who took the pictures, if they ended out like these? It seems like there is always at least one picture that catches someone off guard. Throughout the school year, we have always had our cameras in someone's face. What should you do if your picture is on one of these pages? Well, on the one hand, there's no turning back, its already in the yearbook, and everyone has already seen the picture. On the other hand, everyone likes a little good-humored fun, don't we? And anyway, we didn't ASK you to make that face!!!

Above: **Jenn Monaco** and **Judy Glaskin** show us how pictures can go wrong.
Left Top to Bottom:
1) **Justin Gomolka**, your face is going to get stuck like that.
2) Hey **Brandon Phillips**, turn that frown upside down!

SHS Graduation (Now & Then)

Through all the years, the struggles, the pain
For all the learning, the friends you gain
Everything you've done, and all you plan to do
To go into the world, and to give it a show of you
All the people we meet, some we remember, some we don't
Lost through time's sea, to other places that they don't go
But we look back to 12,11,9 and 10
We think about what happened now and then
Everything I think, of what I'll leave behind
It makes me want to sink, back to when I just pined
Foolishly to leave this place
Take a stand out in that space
To see what's after this we say we hate
Though never realizing til it's too late
We will miss and never have again
Thinking later about now and then
Of all the people we left, along the way
All the friends, the loves, you wish they'd say
But we all grow apart, and we all must move on
Away from them now but in our hearts never gone
And we think about the times, now and then
And when we remember back, back to when
We all did yearn for that fateful day
When from this place we could finally go away

S.A.D.D.

Students Against Destructive Decisions

S.A.D.D.'s goal is to make students aware of the risks involved with alco and drug abuse. Members accomplish this through a series of activities: making announcements at critical times of the year; writing newspaper articles; distributing message cards; providing red ribbons; hanging post creating bulletin boards and a billboard. Through their efforts to stop student's destructive decisions, they inform the student body of consequences for their actions.

boys & girls soccer

Finishing with a record of 8-8-2, the boy's soccer team made the state tournament for the first time in the past five years. In the first game of the tournament they faced Dennis-Yarmouth, and came out with an overtime victory of 2-1. In the second game, the turnout was not as sucessful, as the boys were defeated 5-0 facing nationally ranked Weymouth. Leading the way offensively for Stoughton was Hockomock League All Star and Captain Matt Bernstein, and defensively they were lead by Captain Alan Abreu. Other key players for Stoughton were seniors Joey Zbinski, Yuri Bukhenik, and Captain Jose Ranero. The girls team was not as successful record wise, but there was a huge improvement from last season. Led by new coach Dewey Eduardo and Captains Jessica Sahagian, Kate Thibault, and Alison Batchelder, the team finished with a 3-12-3 record. Leading the way offensively was Hockomock League All Star Val Burson, with eight goals, and two assists. Defensively, Junior Captains Kate Thibault and Alison Batchelder led the team. The team is leaving behind only five seniors, Captain Jessica Sahagian, Katelyn Barry, Keri Cawley, Kelly Unda, and Rebecca Murphy, so the future looks bright for the soccer program.

Black Knight Football

The Varsity Football team showed that even though they lost almost 20 seniors last year, there was no need for rebuilding. Winning the Hockomock league with a record of 9-1 (which hadn't happened since 1975), wasn't their only accomplishment. They had a 13 game winning streak, 5 league All-Stars, the number one defense in the state - only allowing 52 total points - and finished out the season ranked 15th in Massachusetts. Not being the biggest team in the league, they got their wins by having strength, speed and a whole lot of heart. The game that showed true Stoughton High football was without a doubt the North Attleboro game. They went into half-time down 0-7 but, didn't pack it in at all. They went out and dominated the rest of the game winning 14-7. All of the seniors are very sad such a wonderful season had to come to an end. Especially since they won the league and didn't go to the playoffs just because they lost a tough game to Mansfield on a questionable call by the referee. They finished the season with a 35-0 win over rival Canton. The team that nobody thought would do anything will never be forgotten after their incredible season.

Finishing with a record of 16-4, the girls basketball team had yet another successful year. They finished with another Hockomock League championship, as they beat Foxboro at their last home game. Led by senior captains, Heather Jacobs, and Lani Telian, the team qualified for the tournament, beating Wellesley but falling to Somerset. Jacobs was nominated for the McDonald's All American Team, and was also a Hockomock League All Star and team MVP. Starting with a record of 5-1, the boys basketball team had a smooth start, but a rocky finish. The team was led by Senior Captains Matt King, and Jason Leonard. They finished with a record of 10-10, putting them into the state tournament. The Knights bowed out in the first round to Oliver Ames. The teams MVP was Jason Leonard, who was also a Hockomock League All Star along with Roland Millien.

Dear Members of the Class of 2002,

As you complete your education in the Stoughton Public Schools, you are only at the beginning of a great journey where the possibilities are only limited by your imagination. This year, however, another dimension has been added to your future: responsibility. Not just the usual responsibility to yourselves and your family but now more than ever, responsibility to your country. For what you do as a member of our society has a direct impact on the future of this country and the strength of America.

During your four years at Stoughton High School, two major events occurred that demonstrated the need for that strength to ensure the continuing greatness of our society, our government, our country. The first happened at the end of the year 2000 when you were juniors. In November of that year, we had a very close presidential election where the results were in dispute. The vote count was questioned; how the ballots were completed was questioned, the ballot form itself was questioned. Battle lines were drawn along political party lines but not one shot was fired.

Our dispute was fought in the court rooms based on laws and guidelines written over two hundred years ago in a document so well conceived that it is still relevant and respected and forms the foundation of our country, the Constitution of the United States. The fact that this country could have the disputed presidential election decided by civil people in a civil manner is a demonstration of the strength of America. There were no soldiers on the streets of our cities; there was no marshal law. A process outlined by our Constitution and general laws was followed and a final judgement was rendered. And despite anyone's personal feelings on that election process, everyone agrees that the person occupying the White House IS the President of the United States.

The other major event that occurred happened just nine months ago, as you were starting your senior year at Stoughton High School. That horrible event on September 11th also demonstrated the strength of America. Almost 4,000 people perished in New York, Washington, and in a field in Pennsylvania; buildings were destroyed; business was disrupted; lives were altered forever. But while Americans were threatened, America continued to be strong. We gathered together and did whatever we could, from working at the sites, to delivering supplies, to contributing money to help those families whose financial support was destroyed. That was the strength of America.

While America must continue to remain on alert and take many security precautions, our basic way of life continues. That is the strength of America. And while our government officials may have been in danger, our form of government was never in jeopardy. That is also the strength of America.

As you move from Stoughton High School, you are continuing on your path to becoming part of that strength. You have that opportunity; and now, even more so, you have that responsibility. A number of you will be entering the military. You are going to be protecting American interests around the world, and more than ever, you are going to be protecting Americans here at home. As we pray that God is watching over you, we thank you for that commitment and we are proud of you.

For those of you continuing your education, your choices are many. Through those choices, you will be increasing the strength of America. Whether it is financial strength through business, technology strength through the sciences, educational strength through teaching or any of the hundreds of careers out there, each one has its importance in the strength of America.

These are some of the serious aspects of what it means to be a responsible member of today's America; relax, you are still young adults, with parties to go to, friends to make, music and sports to enjoy, and families to love. Just keep tucked away in a corner of your mind, the idea that some day, you are going to be called upon to be part of what is known as, the strength of America.

Congratulations and good luck.

Dear Members of the Class of 2002:

Much of what defines this senior class, was the surreal experience of watching television during langblack on September 11, 2001, when your eyes and mind became disconnected. As the horror of what you saw gave way to grief, and grief began to mix with anxiety and fear, you instinctively knew that your life would never be the same.

All of us were horrified at those terrorists who planned and carried out the bombing of the World Trade Center and the Pentagon. Reading about the families left behind by this act of insanity made that action even more reprehensible, if that is possible.

Our anger toward those who committed this heinous act is justified, but we must stay focused on who is and is not our enemy. That's going to be one of the most difficult parts of dealing with this terrible tragedy. It is difficult and confusing to know who is to blame and respond appropriately. I do know that the sensible way to deal with an uncertain future is to hold one's opinions until one has the facts to remain informed, to read newspapers and watch the news on television.

Obviously this painful event did not define the entire senior year. You have been a wonderful group these past four years. The spirit you've shown at sporting events, at school functions, the earnestness you have brought to your academic endeavors, all speak to your collective character as the senior class of 2002.

Best of luck in the future and warmest regards,

Yearbook Dedication

Stoughton Police & Fire Departments

Through their years of hard work and undying dedication, the Stoughton Police and Fire Departments should be recognized now more than ever. They have helped in innumerable ways to restore, protect, and improve the town, our school, and surrounding areas through recent tragedies. Town officials contributed much time and effort into relieving cities in distress. Because many of these officials spent their youth in Stoughton, and have been residents of the town for years, a special thank you is offered to them. Their devotion to the town is appreciated by all.
